1 Introduction

Quote MTF is located within the Interxion datacenter at 11 Hanbury Street, London, UK.

We are encouraging our Subscribers and Vendors to choose from the following network connectivity options:

- **IPSec VPN:** Connection is effected via the Internet, for *testing only*,
- **Cross Connect (proximity hosted):** If Subscribers/ Vendors are co-located within the Interxion datacenter they have the possibility to cross connect to the Quote MTF environment via 100Megabit/s, 1 Gigabit/s or 10 Gigabit/s Ethernet connections (optical or copper depending on the service required).
- **Extranet provider:** Connectivity is arranged between via one (or more) of several extranet providers.

Subscribers and Vendors are kindly asked to be responsible for selecting their method of connectivity, arranging for subsequent connections to the Quote MTF datacenter and bear all third party charges for communication, including proximity within the datacenter.

We do not charge for any of the above connectivity types.

2 IPSec VPN

- Subscribers and Vendors may connect to Quote MTF test environment using the IPSec protocol over the public Internet;
- This type of access is reserved for testing of unicast market data dissemination and order entry.
- We do support only LAN-to-LAN IPSec VPNs, and the IP address of the device at the Subscriber's/ Vendor's premises must be publicly registered.

3 Cross Connect

Subscribers' / Vendors' network hardware equipment may be co-located within the Interxion datacenter. In the case of proximity hosting Subscribers and Vendors can effect connection to Quote MTF via an Ethernet cross-connect.

- Subscribers and Vendors interested in taking co-location space should contact Interxion (details below).
- Subscribers and Vendors are kindly asked to arrange the equipments' space directly from Interxion,
- All related relationship (technical, commercial, etc.) is between Interxion and the Subscriber/ Vendor.

4 Extranet providers

Subscribers and Vendors are able to connect to Quote MTF infrastructure via an Extranet provider.

- The Extranet supplier will provision the high speed links to Quote MTF.
- Subscribers and Vendors are kindly asked to set the technical & commercial relationship with the Extranet provider.

Also, Quote MTF shall be contacted providing the extranet connectivity details. Current Extranet providers are detailed below.
